For Sale

6085 & 6093 King Road

Nobleton, Ontario

Opportunity

Bousfields' Expert Opinion

"In our opinion, the subject site is an appropriate location for residential intensification as it is located within the Nobleton Village Core area, which is one of three Village Cores (King City, Nobleton and Schomberg) that are the focal points for accommodate the majority of King's population and employment growth, provided certain water and wastewater upgrades are implemented by York Region.

Based on the foregoing, it is our opinion that the subject site is in an appropriate location for residential intensification as it is located on an Arterial Road and designated Village Core area in the Official Plan. The subject site has sufficient size to allow for a back-to-back townhouse development, while providing for appropriate setbacks and transition to Neighbourhoods to the southwest.

It is our understanding that King Township would favour the subject property as they are actively looking to intensify the Core Area of Nobleton.

The property represents an infill site and offers a good location in Nobleton. The end product for the subject property will be townhouse product, which remains in high demand throughout the Greater Toronto Area."

This prime development site offers an exceptional opportunity for residential intensification in the heart of Nobleton, Township of King. Key highlights include:

1. **Strategic Location:** Situated within the village core area, fronting on King Road, an arterial road ideal for residential intensification.
2. **Alignment with Official Plan:** The Township of King's new Official Plan, approved by York Region on September 24, 2020, supports intensification in village core areas.
3. **Townhome Development Potential:** The site's location and current planning framework make it suitable for a potential townhome development, subject to necessary approvals.
4. **Growing Market:** Nobleton is experiencing increasing demand for diverse housing options, particularly in well-connected, central locations.

Official Plan

Land Use

Agricultural Area	Natural Heritage	Institutional
Business Area	Park-Existing	Wetland
Commercial	Park-Future	Village Core
Deferred Residential	Residential	Subject Property
Highway Service Commercial Area	Rural Area	

Nobleton Community Plan

According to Section 5.4 Permitted Uses of the Official Plan, the Village Core designation permits a wide array of residential, commercial, institutional and complementary uses in a compact form. The area also encourage intensification, in a manner that ensures compatible with the small-scale Village character and is compatible with adjacent land uses. The plan envisions the continued revitalization of the Village Cores to support active building frontages, where the ground floor facing the street is occupied by commercial uses, and where upper storeys are occupied by residential, office or community uses.

Village Core polices allow for a development of building height up to six storeys provided that:

- The building is located or tiered in height to minimize visual and shadowing impact on streets and public areas, and provides for appropriate transition with adjacent buildings;
- The compatibility of the building with respect to adjacent low-rise residential areas and sensitive uses is addressed through the use of setbacks, buffers, angular plane requirements as well as the sensitive location of windows and balconies to minimize privacy impacts, as detailed in the implementing zoning by-law, detailed design guidelines, and through site plan control; and
- The development does not exceed a floor space index of approximately 2.5, to ensure the density and scale of the development is suitable in the Village context.
